

RESEARCH IN EARLY CHILDHOOD EDUCATION AND SOCIAL PEDAGOGY

INTERNATIONAL CONFERENCE ❖ JUNE, 13TH — 14TH 2014 ❖ ALANUS UNIVERSITY OF ARTS AND SOCIAL SCIENCES ❖ WWW.ALANUS.EDU

How can dialogue between different pedagogical approaches help to deepen understanding and practice in early years education as well as in social pedagogy?

The symposium “Research in Early Childhood Education and Social Pedagogy” will address this question in a general way with particular focus on the dialogue between mainstream pedagogy and alternatives such as Montessori, Steiner, Pickler and others.

The general aim of the symposium is to nurture constructive dialogue and exchange between diverging theoretical positions and approaches to practice. The symposium will consist of short paper presentations and key-note lectures which will serve as a basis for general discussion.

If you would like to submit an abstract for a paper, please do so by 20th of May 2014 by sending it to ❖ caroline.gaus@alanus.edu

Attendance to the symposium is free.

For general information please contact ❖ fergus.anderson@alanus.edu
